

# Mission Statement expanded

The mission of Four Bridges Ministry [www.FourBridges.org](http://www.FourBridges.org) is to build four effective communication bridges for connecting Christian workers with their harvest fields and support partners.

**Better connections** in the body of Christ leads to improved communications and cooperation. The intention is that these connections facilitate improved benevolence, evangelism and discipleship.

**First year of operations (2006)** the focus is on serving those impacted by hurricanes in the USA. Then after much prayer and research the operations may be expanded to include those impacted by earthquakes, floods, wildfires, tornados and other disasters. Later the operations may be expanded to serve those in other countries.

**Christian workers** include volunteers in the following fields: medical, construction, counseling, ministry and other (helping, serving, encouraging, hospitality, etc.).

**Harvest fields** include evacuees from hurricanes, the rebuilders (those who rebuild their homes and businesses) plus the families and friends of both.

**Support partners** include intercessors, advisors and donors (of things and money).

**Communication bridges** include synergistic systems of media like websites, streaming audio, MP3 downloads, PDF files, Power Point slide shows, CDs, print, Internet radio station, etc.

Bridge from worker to field carry

News, networking contacts, information, inspiration, education, host family connections, testimonies, teachings, sermons, instructions, encouragement

Bridge from field to worker carry

Networking connections, recommended resources, purchase of products, make donations, feed back (comments, suggestions, questions)
